and keep the applicable limits of the

> Commission Regulation (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food, Official Journal of the European Union L 12/1 of 15 January 2011, last amended by Commission Regulation (EU) 2023/1627 of 10 August 2023, Official Journal of the European Union L 201/4 of 11 August 2023,

regarding individual constituents.

Thus, the black nitrile gloves **Nitrile Powder Free Examination Gloves (Black)** according to the sample material submitted may be used safely in the food industry during the preparation and handling of food. They may stand in direct contact with all types of food for a short period of time.

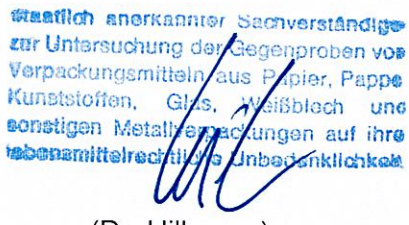

The maximum ratio of the food contact surface of the gloves and the amount of food shall not exceed 8.4 dm² per 5 kg food. This is equivalent to a contact of the palm and back of both hands including fingers with 5kg food.

This certificate of compliance represents the latest technical standard and is based on the certificate of compliance no. 50747 U 19 of 11 November 2019 in connection with a new partial examination of the product.

This certificate of compliance has a validity of 2 years and consists of 4 pages.
